

Chinook SQL Data Analysis

A concise analysis of customer, sales, product, revenue, and employee data using PostgreSQL.

Database Chinook	Tool PostgreSQL	Analysis 15 questions
----------------------------	---------------------------	---------------------------------

Analysis areas

Revenue & sales performance • Customer behaviour • Product & genre performance
• Revenue trends • Employee performance

Each section presents the analysis question, executed SQL output, and a short finding.

1. Which music genres generate the highest total revenue?

Key finding: Rock leads revenue with \$826.65, followed by Latin at \$382.14

	genre character varying (120) 	total_revenue numeric 
1	Rock	826.65
2	Latin	382.14
3	Metal	261.36
4	Alternative & Punk	241.56
5	TV Shows	93.53

2. Which artists generate the highest total revenue?

Key finding: Iron Maiden is the top artist by revenue at \$138.60, followed by U2 at \$105.93.

	artist character varying (120) 	total_revenue numeric 
1	Iron Maiden	138.60
2	U2	105.93
3	Metallica	90.09
4	Led Zeppelin	86.13
5	Lost	81.59

3. Which countries have the highest number of customers and total revenue?

Key finding: The USA leads with 13 customers and \$523.06 in revenue; Canada ranks second with \$303.96.

	country character varying (40)	total_customers bigint	total_revenue numeric
1	USA	13	523.06
2	Canada	8	303.96
3	France	5	195.10
4	Brazil	5	190.10
5	Germany	4	156.48

4. Who are the top 10 customers based on their total spending?

Key finding: Helena Holý is the highest-spending customer at \$49.62, followed by Richard Cunningham at \$47.62.

	customer_id [PK] integer	customer_name text	total_spending numeric
1	6	Helena Holý	49.62
2	26	Richard Cunningha...	47.62
3	57	Luis Rojas	46.62
4	45	Ladislav Kovács	45.62
5	46	Hugh O'Reilly	45.62
6	37	Fynn Zimmermann	43.62
7	28	Julia Barnett	43.62
8	24	Frank Ralston	43.62
9	25	Victor Stevens	42.62
10	7	Astrid Gruber	42.62

5. What are the average, minimum, and maximum invoice values?

Key finding: The average invoice is \$5.65. Invoice values range from \$0.99 to a maximum of \$25.86.

	average_invoice_value numeric	minimum_invoice_value numeric	maximum_invoice_value numeric
1	5.65	0.99	25.86

6. Which tracks have been purchased the most based on the total quantity sold?

Key finding: The top 10 tracks are tied at 2 units sold each, so no single track leads the group.

	track_id [PK] integer	track character varying (200)	total_quantity_sold bigint
1	2404	Right On Time	2
2	1940	Norwegian Wood	2
3	2172	Big Wave	2
4	2054	Selvagem	2
5	2352	Que Luz É Essa	2
6	1644	Bron-Y-Aur Stomp	2
7	1331	Run Silent Run Deep	2
8	161	Snowblind	2
9	1831	Motorbreath	2
10	2636	Sun King	2

7. Which albums generate the highest total revenue?

Key finding: Battlestar Galactica (Classic), Season... is the top album at \$35.82, followed by The Office, Season 3 at \$31.84.

	album character varying (160)	artist character varying (120)	total_revenue numeric
1	Battlestar Galactica (Classic), Seaso...	Battlestar Galactica (Class...	35.82
2	The Office, Season 3	The Office	31.84
3	Minha Historia	Chico Buarque	26.73
4	Heroes, Season 1	Heroes	25.87
5	Lost, Season 2	Lost	25.87
6	Greatest Hits	Lenny Kravitz	25.74
7	Unplugged	Eric Clapton	24.75
8	Battlestar Galactica, Season 3	Battlestar Galactica	23.88
9	Lost, Season 3	Lost	21.89
10	Acústico	Titãs	21.78

8. How does total revenue change over time?

Key finding: Revenue fluctuates over time, with noticeable peaks around early 2022, 2023, 2024, and late 2025.

9. Are there any customers who have never made a purchase?

Key finding: No customers were returned by the query, indicating every customer in the dataset has at least one purchase.

	customer_id [PK] integer	customer_name text	country character varying (40)
--	-----------------------------	-----------------------	-----------------------------------

10. Which support employees manage the most customers, and how much revenue is generated by those customers?

Key finding: Jane Peacock manages 21 customers and has the highest customer revenue at \$833.04.

	employee_id [PK] integer	employee_name text	total_customers bigint	customer_revenue numeric
1	3	Jane Peacock	21	833.04
2	4	Margaret Park	20	775.40
3	5	Steve Johnson	18	720.16

11. Which media types generate the highest total revenue?

Key finding: MPEG audio file dominates revenue at \$1,956.24, far ahead of the other media types.

	media_type character varying (120)	total_revenue numeric
1	MPEG audio file	1956.24
2	Protected MPEG-4 video f...	220.89
3	Protected AAC audio file	144.54
4	Purchased AAC audio file	3.96
5	AAC audio file	2.97

12. Which customers have made the highest number of purchases?

Key finding: Several customers are tied for the highest purchase frequency, with 7 purchases each.

	customer_id [PK] integer	customer_name text	total_purchases bigint
1	10	Eduardo Martins	7
2	56	Diego Gutiérrez	7
3	5	František Wichterlo...	7
4	55	Mark Taylor	7
5	43	Isabelle Mercier	7
6	25	Victor Stevens	7
7	18	Michelle Brooks	7
8	42	Wyatt Girard	7
9	12	Roberto Almeida	7
10	34	João Fernandes	7

13. Which genres have the highest number of tracks sold?

Key finding: Rock is the most popular genre by quantity sold with 835 tracks, followed by Latin with 386.

	genre character varying (120)	total_tracks_sold bigint
1	Rock	835
2	Latin	386
3	Metal	264
4	Alternative & Punk	244
5	Jazz	80
6	Blues	61
7	TV Shows	47
8	Classical	41
9	R&B/Soul	41
10	Reggae	30

14. Which months generate the highest total revenue?

Key finding: January has the highest revenue among the months shown at \$201.12, closely followed by June at \$201.10.

	month text	month_number numeric	total_revenue numeric
1	January	1	201.12
2	June	6	201.10
3	April	4	198.14
4	August	8	198.10
5	Septemb...	9	196.20
6	March	3	195.10
7	May	5	193.10
8	October	10	193.10
9	July	7	190.10
10	Decemb...	12	189.10

15. Which customers have spent more than the average customer spending?

Key finding: The query returns customers whose spending is above average; the screenshots show the resulting high-value customer list.

	customer_id [PK] integer	customer_name text	total_spending numeric
1	6	Helena Holý	49.62
2	26	Richard Cunningham	47.62
3	57	Luis Rojas	46.62
4	46	Hugh O'Reilly	45.62
5	45	Ladislav Kovács	45.62
6	24	Frank Ralston	43.62
7	37	Fynn Zimmermann	43.62
8	28	Julia Barnett	43.62

9	7	Astrid Gruber	42.62
10	25	Victor Stevens	42.62
11	44	Terhi Hämäläinen	41.62
12	48	Johannes Van der ...	40.62
13	5	František Wichterlo...	40.62
14	43	Isabelle Mercier	40.62
15	3	François Tremblay	39.62
16	42	Wyatt Girard	39.62
17	17	Jack Smith	39.62
18	1	Luís Gonçalves	39.62
19	20	Dan Miller	39.62
20	22	Heather Leacock	39.62
21	4	Bjørn Hansen	39.62
22	34	João Fernandes	39.62
